### Thunderbolt Solutions Receives Systems Engineering Contract for US Army Aerostat Program

3-13-2025: Thunderbolt Software LLC dba Thunderbolt Solutions, Mullica Hill, New Jersey was selected by the US Army's Product Director for Aerostats as part of a \$4.1B Multiple Award Task Order Contract (MATOC) for the performance of Systems Engineering and Software Development services. Under this contract, Thunderbolt will leverage its considerable experience developing and sustaining complex mission systems and for ways to adapt its CASPR software and architecture solutions to support the US Army's C5ISR system performance objectives.

Thunderbolt Solutions leads the way in the development and deployment of mission critical, proprietary solutions in the aerospace industry, with particular focus upon advanced autonomous systems and control platforms.
